PROPOSED FALL SERVICE ADJUSTMENTS

We Need Your Input!

This fall, LTD will implement schedule changes on the bus routes listed below. This is part of the District's effort to create more efficient and sustainable service while matching the needs of the community to the resources available.

- EmX** – The Springfield Station to Eugene Station to Commerce segment would maintain current 10 minute service. The Gateway to Springfield Station segment may move to 15 minute service to better align with current demand. Evening and weekend EmX service would remain on the current schedule.
 - 11** **Thurston** – The route may straighten, by eliminating going through Thurston Station inbound and making frequency changes to adjust to new EmX connections on all days. Several low-performing trips could be removed and time-points could change throughout the route.
 - 12** **Gateway** – May change weekday schedule times on four trips so they meet up with the departure times of other routes at Eugene Station.
 - 27** **Fairmount** – Frequency could change from 30 minutes to 60 minutes on weekdays. Possible removal of two morning trips and several evening trips with low-demand and less productivity.
 - 28** **Hilyard** – Weekday frequency may change to maintain 30 minute service and remove less productive, low-demand trips such as two partial trips in the morning.
 - 33** **Jefferson** – Frequency may change from 30 to 60 minutes on weekdays for less productive trips. Peak-time trips, which occur during the hours of 7:45 a.m. – 9:00 a.m., and 3:15 p.m. – 7:00 p.m., would remain at 30 minutes.
 - 41** **Barger/Commerce** – Service frequency changes during weekdays may remove less productive low-demand afternoon trips. Highly utilized morning and early evening service would remain unchanged.
 - 51** **Santa Clara** – Routing change from 5th Avenue to 10th Avenue would serve senior housing.
 - 55** **North Park** – Weekday frequency may change slightly by removing two low-demand trips.
- Please share your comments by **June 20**.

- 73** **UO/Willamette** – Frequency service changes on weekdays to maintain 30 minute service and remove underutilized trips.
 - 78** **UO/Seneca** – Weekday frequency may change from 30 to 60 minutes in response to low-demand and may decrease costly idle time on the route.
 - 79X** **UO/Kinsrow** – Frequency may change to remove less productive trips on weekdays.
 - 81** **LCC/Harris** – May change to 60 minute frequency on weekdays to meet demand. Routing may change from Harris to Hilyard to straighten the route and eliminate a difficult turn onto 30th Avenue. Route name may change to LCC/Hilyard to reflect new routing.
 - 82** **LCC/Pearl** – Frequency may change from 10 to 20 minutes and 20 to 30 minutes on weekdays based on demand, which would increase productivity on the remaining trips by combining underutilized trips with more productive trips.
 - 85** **LCC/Springfield** – Weekday frequency changes may change from 30 to 60 minutes during off-peak times during the middle of the day.
 - 95** **Junction City** – May combine the last two weekday trips based on demand, and change Saturday service from four to three total trips, which is more consistent with LTD's other rural transit service.

The Way You Move

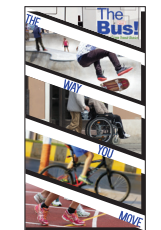

Student Poster Competition

Art inspires people and recently a number of talented high school students set out to inspire our community to walk, bike and take transit by participating in a student art competition. When Eugene-Springfield Safe Routes to School (SRTS) thought about how to expand the group's mission to high school aged students, an art competition seemed like a great fit. Partnering with Lane Transit District, Eugene-Springfield SRTS launched a first annual themed art competition. This year's theme is "The way you move." Student artists were asked to create a poster with this theme as it relates to riding public transportation, walking, biking and skateboarding. The goal was to encourage others to make smart and sustainable travel choices through their art. Graphic art students from Willamette High School and Springfield High School took part in the competition and five winning artists will get their artwork displayed on LTD buses this June!

TRANSIT TOMORROW

Your transit. Your vision. Your future.

LTD is beginning a planning effort that will define what transit looks like in our community in the years ahead. Check out LTD.org/Transit-Tomorrow and watch for details in the July Bus Talk. What you think is important to us!

BIKE TO THE EM'S GAME

Batter up!

The Eugene Emeralds will be all about pedal power and transportation options at their Sunday, June 24, 5:00 p.m. event, Bike to the Ballpark Day. Event attendees will have the chance to win cycling-related prizes. Some fans might even go home with a bike of their own!

Stop by the Bike Valet parking area near the park's entrance and visit with LTD's Point2point staff to spin the prize wheel for fun stuff. The Point2point program has many services that can help you or someone you know find a carpool partner, plan your bus or bike trip, support an emergency ride home, or start a long-distance vanpool.
