

EmX is LTD's Bus Rapid Transit (BRT) system, connecting West Eugene, Downtown Eugene, the University of Oregon, Downtown Springfield, and the Gateway and RiverBend areas. EmX offers dedicated bus lanes and signals that prioritize bus movement, ensuring quicker travel compared to other modes of transportation. EmX Stations are designed for passenger comfort, featuring covered shelters, fare vending machines, and real-time arrival information.

Fare is Required on EmX

Like LTD's neighborhood fixed-routes, fare is required on EmX. Purchase bus fare in advance at a ticket vending machine on each EmX platform, at the Customer Service Centers, or in the Umo app. EmX day passes are interchangeable and can be used on fixed-route buses. **Be prepared to show valid fare when asked by a fare inspector or public safety officer.**

Please Arrive at the Bus Stop Five Minutes Early

If a stop is not listed on the timetable, use the previous major stop as a guide to determine when to arrive at the stop.

Understanding Published Times

The stops noted with numbers on the EmX route map and timetable are **major stops** that help keep the bus on schedule. EmX buses are required to stop at these platforms even if there is not a person waiting at the platform or a when a stop is requested.

Between the major stops noted on the map and timetable, EmX buses may not always stop, unless a stop is requested onboard or a rider is waiting at the platform.

Navigating the Gateway EmX Loop

In Springfield, EmX buses travel along the Gateway section of the route in two directions: clockwise and counterclockwise around the loop. Each trip serves Sacred Heart Station, but the route alternates between serving Gateway Station and Sacred Heart Station first.

When planning a trip, pay attention to where the dashes appear on the timetable and if they are before or after the midline of the timetable. If the two dashes in the Sacred Heart Station column appear before the midline, then the bus travels clockwise and serves Gateway Station before Sacred Heart Station. Conversely, when the Sacred Heart Station column lists a timepoint before the midline, but has two dashes after the midline, the bus will travel to Sacred Heart Station first.

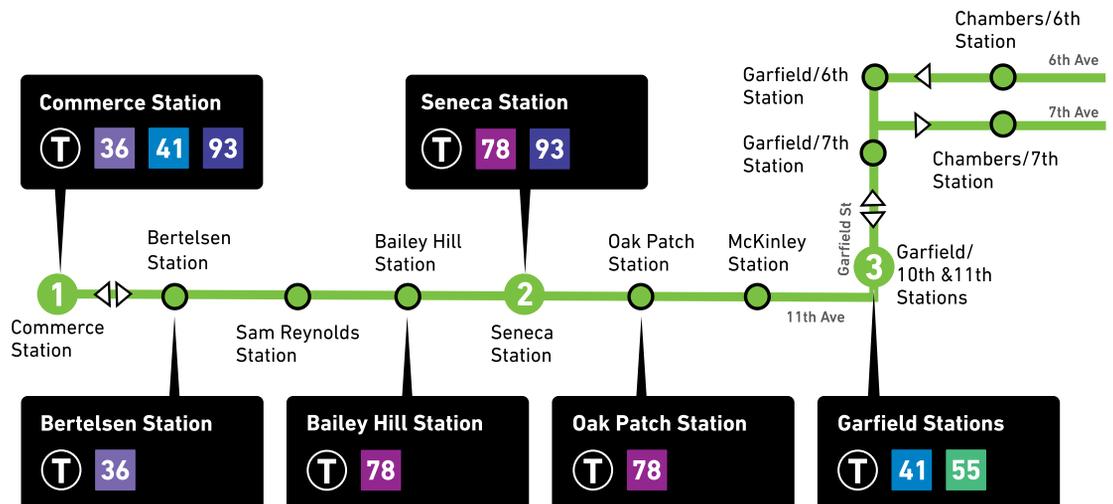

At the EmX platform, check the exterior LED signs to see which direction the bus is traveling and reference the timetable.

Bikes on EmX

See page 13 to learn more about putting your bike on an EmX bus.

Punto de Transferencia

El EmX es el sistema de Transporte Rápido de Autobús (BRT, por sus siglas en inglés) de LTD que conecta el oeste de Eugene, el centro de Eugene, la Universidad de Oregón, el centro de Springfield y las áreas de Gateway y RiverBend. El EmX ofrece carriles exclusivos para autobuses y señales que dan prioridad al movimiento del autobús, lo que asegura un viaje más rápido en comparación con otras formas de transporte. Las estaciones del EmX están diseñadas para la comodidad de los pasajeros, con refugios cubiertos, máquinas expendedoras de boletos e información sobre las llegadas en tiempo real.

El boleto es necesario para el EmX

Al igual que las rutas fijas de LTD, EmX exige el pago de la tarifa. Compre su boleto de autobús de forma anticipada en una máquina expendedora de boletos en cada plataforma de EmX o en los centros de servicio al cliente o a través de la aplicación Umo. Los pases diarios para el EmX son intercambiables y se pueden utilizar para los autobuses con rutas fijas regulares. Prepárese para mostrar un boleto válido cuando el inspector de boletos o el oficial de salud pública se lo pidan.

Por favor llegue a la parada de autobús cinco minutos antes

Si en el horario no se indica una parada, utilice la parada principal anterior como guía para determinar cuándo debe llegar a la parada.

Información sobre los horarios

Las paradas que se indican con números en el mapa de rutas del EmX y los horarios son las paradas importantes que mantienen el autobús sin retrasos. Los autobuses EmX deben detenerse en esas plataformas, aunque no haya nadie esperando en la plataforma o cuando se solicite la parada.

Entre las paradas importantes que se indican en el mapa y en los horarios, los autobuses EmX no siempre se detienen, aunque el pasajero solicite la parada o aunque el usuario esté esperando en la plataforma.

Desplazamiento por el circuito de EmX en Gateway

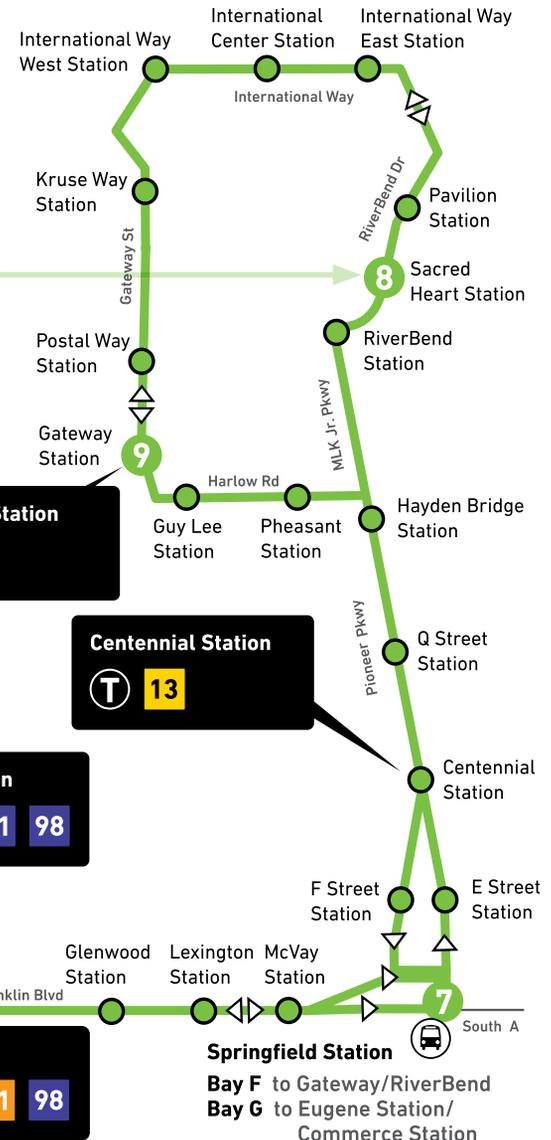

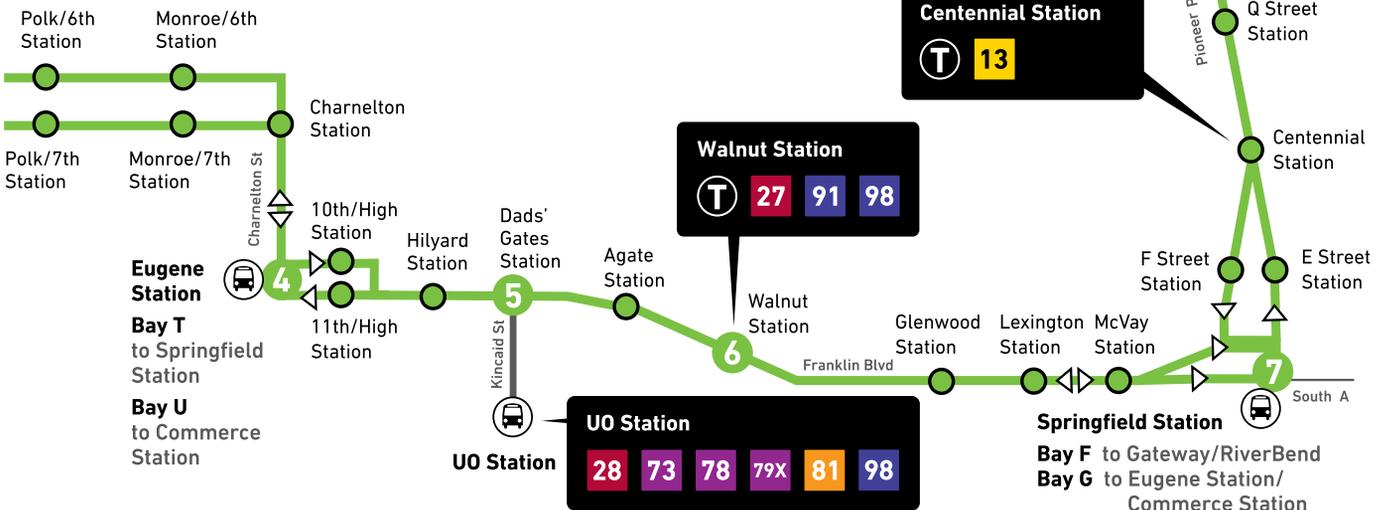

En Springfield, los autobuses EmX viajan en dos direcciones por todo lo largo de la sección de Gateway: en sentido de las manecillas del reloj y contra las manecillas del reloj alrededor del circuito. Cada recorrido ofrece el servicio a la estación de Sacred Heart, pero la ruta se turna entre primero acceder a la estación de Gateway o la estación de Sacred Heart.

Si va a planificar un viaje, preste atención al lugar donde aparezcan los guiones en los horarios y si aparecen antes o después de la línea central del horario. Si los dos guiones en la columna de la estación de Sacred Heart aparecen antes de la línea central, entonces el autobús viajará en sentido de las manecillas del reloj y pasará primero a la estación Gateway antes de la estación de Sacred Heart. Por el contrario, si la columna de la estación de Sacred Heart indica un punto de tiempo antes de la línea central, pero tiene dos guiones después de la línea central, el autobús se trasladará primero a la estación de Sacred Heart.

En la plataforma del EmX verifique las señales exteriores de LED para ver en qué dirección viaja el autobús y consulte el horario.

Bicicletas en el EmX

Vea la página 14 para saber cómo colocar su bicicleta en un autobús EmX.
